The IJBBA understands that furthering personal education is paramount to a successful career and of the rising costs associated with post-secondary education. Therefore, our association's goal is to create opportunities for our youth to further their education through financial assistance. To facilitate this awards program, the IJBBA has developed a new Endowment Fund and is now ready to accept contributions.

The following page outlines two different contribution levels and how you or your company can become of part of this new and exciting **Exhibitors for Education** Scholarship Endowment.
